## Storyboard about George Wilson

By Trent Waterman

George Wilson was trying to get to work one day when all the parking spots were full.

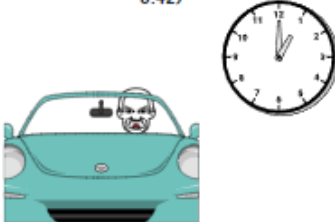

Because of this, he was almost half a minute late to work! (a disaster)

His friend recommended this cool new app he can use that shows him empty parking spots in the area.

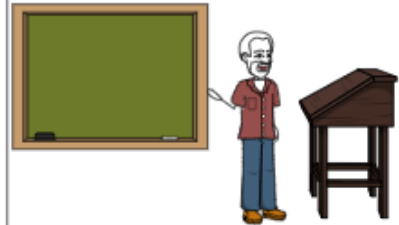

Oh no! The next day he was running late again (he left his house at 8:43 instead of 8:42)

But he was able to use this awesome app to find a parking spot immediately, saving precious seconds getting to work.

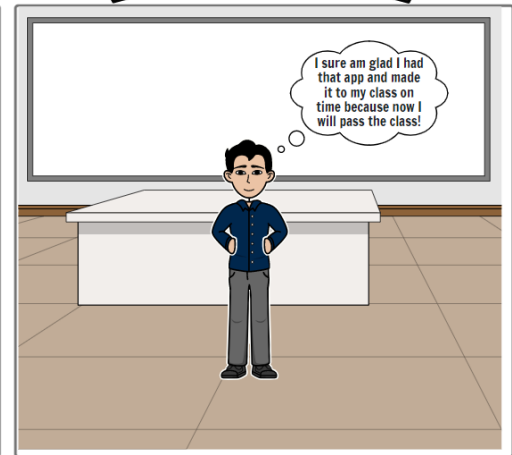

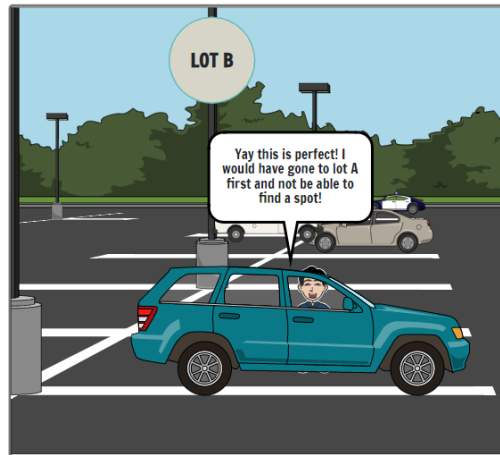

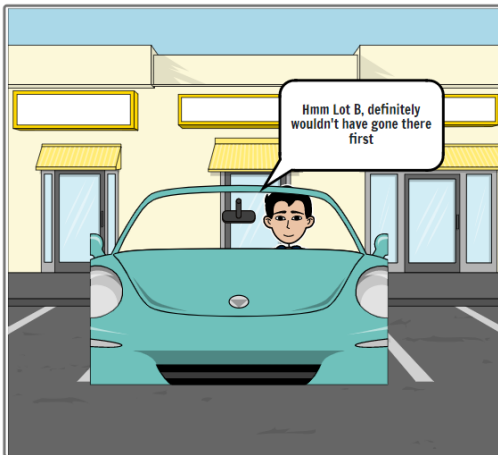

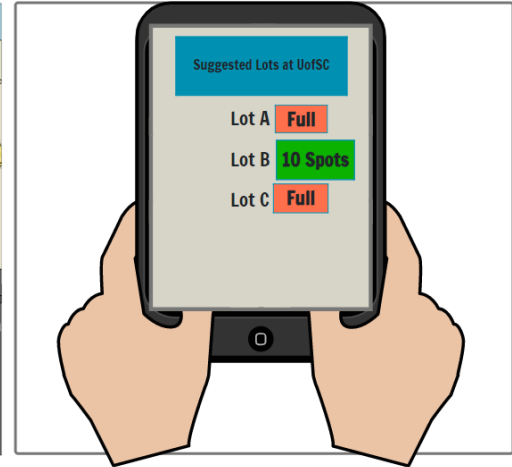

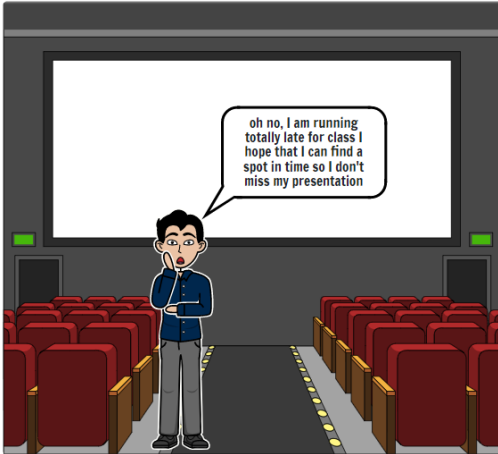

Now, he is a parking master and was never close to being late ever again.

# Story about Vinny

by Olivia Falcione

Vinny was on his way to the university. He has just started attending university because his wife, well ex-wife decided to leave him because he was "lazy".

Vinny looks down on his watch. Since he was commuting to class he really needed to make sure he timed his drive well. He was a very punctual person. He had accounted for everything down to the traffic. Except... parking.

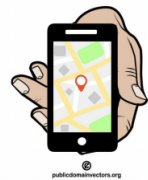

When Vinny pulled up to the lot, every single parking spot was taken. And he had 2 minutes to get to class.

Vinny was running as fast as he could but it was too late. The professor had locked the door and he missed attendance.

He sat outside and sobbed on the floor, partly because of missing class and partly because of his wife. While crying a classmate asked him what was wrong. "I couldn't find a parking spot," Vinny cried. "Well have you tried this new app? It'll help you find a spot from the comfort of your phone."

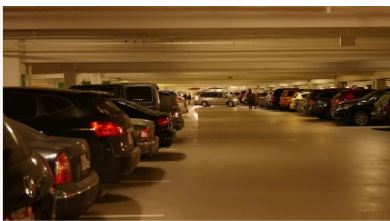

The next day Vinny was driving to class. He found a spot almost immediately when he used the handy new app his classmate had told him about.

# Story About Kesha! - David Mwakapusya

Today, Kesha has arrived at the University of South Carolina as a guest speaker to a business class about the possible legalization of marijuana in their State. With the upcoming election and the new candidate proposing it.

However, she did not take into consideration how much of a hassle finding parking on campus is!

She did however have an app downloaded from her last guest lecture at the University of Florida.

The app adjusted to her location and was pretty straightforward from there

At the end of the day, Kesha became super happy because she got great parking and also didn't become late to her lecture.
